Current activities of JN-HRD.NET

At present, JN-HRD.NET has five important subjects on nuclear HRD and each subject is now being discussed under Sub- Working groups for conducting the relative activities:

1. To reinforce action toward elementary, junior-high and high school educations so as to increase the number of students entering into a higher grade school of Science, particularly Engineering

2. To reinforce basic education on nuclear technologies and its related subjects at universities and colleges, and to rebuild the system of professional education on nuclear energy (enhancement and reinforcement)
3. To train young generations to be international-minded talented persons
4. To support nuclear HRD training in countries that plan to introduce nuclear energy (NPP) in the near future
5. To support technical and knowledge transfer to next generations

Secretariat

JAEA (Japan Atomic Energy Agency) and JAIF (Japan Atomic Industrial Forum, Inc.) play a central role in coordinating participating organizations and local networks, and also in conducting inter-organ HRD activities in close cooperation with participating organizations.
