

<Japan Atomic Energy Agency>

The 2024 International Forum on Peaceful Use of Nuclear Energy, Nuclear Non-Proliferation and Nuclear Security (December 10)

Dear all,

The Integrated Support Center for Nuclear Nonproliferation and Nuclear Security (ISCN) of Japan Atomic Energy Agency (JAEA) cordially invites you to the 2024 ISCN/JAEA International Forum on Peaceful Use of Nuclear Energy with the focus on human resource development in the field of nuclear non-proliferation and nuclear security, and collaboration between universities and research institution. In May 2024, ISCN/JAEA joined the IAEA International Nuclear Security Education Network (INSEN) (a partnership to promote sustainable nuclear security education). Taking this good opportunity, this year's Forum will be positioned to build momentum for strengthening education on nuclear non-proliferation, nuclear security, and nuclear disarmament as a means of student engagement and literacy to secure human resources in the fields of nuclear non-proliferation and nuclear security. Discussions will also be held with the aim of sharing common issues, needs, and good practices in the global, Asian region, and Japan, as well as to draw up necessary future initiatives and a vision for the future, including university education and research institutions, and domestic, regional, and international collaborations.

●Date: December 10, 2024; 13:30PM – 17:30PM (JST)

●Format: Hybrid: in-person / online (Zoom Webinar)

●Venue: IINO Conference Center, Room A

<https://www.iino.co.jp/hall/en/access/>

●Organizer: Japan Atomic Energy Agency (JAEA)

●Language: English and Japanese simultaneous translation available

●Registration: Please click on the link below to register for this event

Registration Deadlines:

- In-Person Attendance: December 4, 2024 (Wednesday) at 17:00PM (JST)

- Online Attendance: December 9, 2024 (Monday) at 12:00PM (JST)
